

## Arrowhead Lace and Cable Scarf

Designed by: Sandy Hussey  
For Jimmy Beans Wool

Sandy Hussey designed this scarf after seeing how well the handpainted Artyarns Silk yarns worked together. She found inspiration though a Barbara Walker book - and then decided to work the scarf in two halves and graft it together using the Kitchener stitch, for a seamless scarf.

**Return held (1st) portion of scarf to working needle and graft together using Kitchener stitch as follows:**

### **Kitchener Stitch**

This is used to graft pieces of knitting together creating a seamless appearance. This must be done with live stitches with an even number on each needle and is as follows:

- Thread your 10-12 inch tail onto your tapestry needle and hold needles together, with the wrong sides of your work facing each other. Your tail should be coming from the back needle and then proceed:
- 1. Slide your tapestry needle through the first stitch on the front needle as if to knit. Pull the yarn through and drop that stitch off of the needle.
- 2. Now pass your tapestry needle through the next stitch on the front needle as if to purl and pull the yarn through DON'T drop this stitch off of the needle.
- 3. Now pass the tapestry needle through the first stitch on the back needle as if to purl and drop that stitch off of the needle, pulling the yarn through snugly.
- 4. Now pass your tapestry needle through the second stitch on the back needle as if to knit, DON'T drop this stitch off of the needle.
- Repeat steps 1-4 working all of the stitches snugly and then pull the yarn through to the wrong side and weave in the ends.
- Weave in any remaining ends, mist scarf and block to finished measurements.
