Woven

Fold the stockinette stitch across the back of each strap and mattress stitch them in place. Next, lining the ends of those flaps up with the top (purl row) edge of the bag, mattress stitch the front and back straps to the outer layer of the bag on both sides of each strap.

Then mattress stitch the vertical sides of each pocket to the bag up against the edges of the braided straps. Lastly, sew the three unattached sides of the bottom woven stitch flap to the inner layer of the bag and weave in all remaining ends.
